

DRUG SCREEN POLICY/CONSENT FOR DRUG SCREEN

It is the policy of BrightView to drug screen all patients via urinalysis. Patients will be screened at intake as well as periodically and randomly throughout treatment. A positive drug screen is not cause for immediate termination from the program. However, a positive drug screen could result in a change in your treatment plan. A drug screen may not be covered by your insurance provider. If that is the case you will be responsible for payment of the urine screen.

A refusal to consent to a drug screen will result as a “positive” in patient records. Repeated positive drug screens could result in a change in treatment plan and/or termination from the program.

CONSENT FOR DRUG SCREEN

By signing below, I am giving BrightView and any/all approved employees of BrightView permission to take a urine sample from me/my child for evidence of drug use. The purpose of obtaining the specimen is to monitor the possible use of illegal substances. I also understand that to maintain the integrity of the specimen I/my child will be observed while the urine specimen is obtained. However, I/my child will be afforded a reasonable amount of privacy and will not be required nor allowed to expose my/his or her genitals at any time.
