

## COMPREHENSIVE OUTPATIENT ADDICTION TREATMENT

### **Shawn A. Ryan, MD, MBA, ABEM, ABAM**

*Chief Science Officer & President, Advocacy and External Relations*

For over 16 years, Dr. Ryan has practiced Emergency and Addiction medicine in the Greater Cincinnati area, and was the former Department Chairman of Quality and Patient Safety for Mercy Health. For nearly a decade, Dr. Ryan has focused his attention on addressing quality, standards, and excellence within addiction medicine.

Dr. Ryan serves on many regional, state, and national committees/workgroups dedicated to turning the tide of this drug epidemic. He is the immediate past president of the Ohio Society of Addiction Medicine and the current Vice-Chair of Legislative Advocacy for ASAM (American Society of Addiction Medicine).

Dr. Ryan shares his expertise and advocacy by engaging with media outlets to dispel the stigma and myths surrounding substance use disorder. Among many regional platforms, the New York Times has sought Dr. Ryan's prowess as well as the World Health Care Congress.

As a champion for change, the Northern Kentucky native has testified to state and federal legislators, including the House Committee on Energy and Commerce about the community and economic impact of effective and evidence-based substance use disorder treatment.

The University of Cincinnati alumnus is one of the founders of BrightView. He is responsible for strategic development, alignment of operations and medical practice, clinical and outcomes research, and maintaining focus on the mission and vision of the company. In addition, he is both a board-certified addiction specialist and an emergency physician.

---

*BrightView is an outpatient addiction medicine practice dedicated to helping patients heal physically, mentally, and emotionally through medication assisted treatment (MAT), individual counseling, group therapy, and social services support.*

*Since opening in 2015, BrightView's approach to addiction medicine has been based on evidence and clinical best practices. The outpatient treatment plan works seamlessly with patients' daily life commitments. To ensure everyone receives the care they need, BrightView accepts all insurances, Medicaid, and Medicare.*
